OUR MISSION

Clarins Spa Treatments embody the art of a professional, personalized touch, a unique savoir-faire practised for over 70 years in our Beauty Institutes. They are also the exceptional combination of the power of plants and science which delivers effective, visible results on the skin, while bringing well-being and balance.

OUR STORY

It all began in the first Clarins Institute on rue Tronchet, Paris. It was 1954 when Jacques Courtin-Clarins opened this pioneering establishment where he presented his holistic vision of beauty: beauty, well-being and health are one and the same. Here he encouraged a dialogue with his clients. Very happy with the tailor-made solutions offered at his Institute, more and more clients came to “test” the Clarins technique and the first 100% plant extract Oils. The results, both immediate and long-lasting, were there. And with them, success!

This “Spa” vision, influenced from the start by the brand’s founder, continues to inspire today’s Treatments, products and techniques.

“I wanted to make a connection between medicine and beauty, between science and the cosmetic world”.

Jacques Courtin-Clarins

CLARINS PROFESSIONAL BEAUTY

The science of touch is at the very heart of how Clarins' story began. Thanks to their hands' sensitive nature and instinctive precision, Clarins Beauty Therapists (estheticians) understand the skin's needs and compose a targeted beauty response and help create a feeling of exceptional well-being. They draw energy from within themselves which helps guide a made-to-measure dialogue with the skin.

During a Clarins Spa Treatment, both hands are in action. The same hand movement can produce totally different benefits. Depending on the surface and weight of the hand in contact with the skin, along with the speed of the movement, all of this helps stimulate blood and lymphatic circulation as well as the circulation of energy. The body is deeply detoxified and drained. Every hand movement counts. This unique method is 100% manual and consists of 450 different movements. With more than 20 days of training, all estheticians trained by Clarins learn these movements and practice them every day.

The Clarins Spa experience is founded on the perfect synergy between hands that are capable of 'reading' the skin, and Clarins proven PRO formulas, highly concentrated in plant extracts to offer optimal results and promote a feeling of overall well-being. At home, this feeling continues thanks to Clarins application methods and nutrition & lifestyle tips for a holistic approach to beauty and well-being.

EACH PERSONALIZED TO YOU.

CLARINS MIXOLOGIE THE ART OF PROFESSIONAL BLENDING

At Clarins Spas, Clarins estheticians mix product formulas together to personalize the Spa Treatment and target any specific additional needs in phase with the client's lifestyle. The result leads to a new texture that is perfectly adapted to massage.

If some "mixes" are only used in the Spa, others can be suggested to our clients as a way to boost their routine and promote a moment of well-being. These "mixes" are truly exceptional expert secrets.

PLANTS, OUR SCIENCE

ClarinsPRO products are formulated by Clarins Research and used exclusively in Clarins Spa Treatments. These professional formulas are derived from the latest botanical discoveries and scientific innovations which combine plant extracts, essential oils and molecules in their most optimal and effective concentration. For every single one, up to 300 trials and 250 tests were carried out.

Their textures have a remarkable sensoriality and were created to facilitate hand movements. They can be mixed easily together to create a personalized beauty response and promote optimal results.

CREATE SKIN CARE PRODUCTS...

**INVENTIVE FORMULAS,
DRIVEN BY SCIENCE AND PLANTS.**

A palette of addictive colours, always easy to apply (even for novices!), but also easy to wear thanks to natural and vibrant nuances that make a person feel good and which highlight the beauty of all skin tones.

**SENSORIAL TEXTURES INSPIRED BY SKIN CARE:
CREAMS, WATERS, MILKS, GEL-BASED OILS
AND EVEN A WHIPPED CREAM TEXTURE!**

They fuse easily with the skin and remain invisible but are full of skin care benefits. Textures that glide effortlessly over the skin and blend in easily. You won't feel a thing, and coverage is always made-to-measure.

RESPONSIBLE BEAUTY

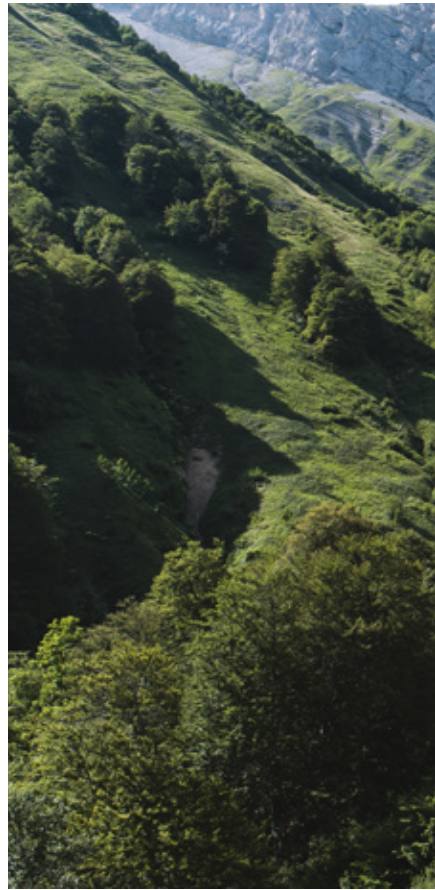

Protecting biodiversity, fair trade, helping children in need, supporting medical research... Clarins has always been committed to a more sustainable, ethical beauty. In 2016, Clarins most beautiful dream came true, with a major new responsible step: the creation of its own Domaine, to source the best ingredients while preserving the environment.

CLARINS T.R.U.S.T. Your product traced from the field to you

TRACEABILITY - RESPONSIBILITY - UNIQUENESS - SAFETY - TRANSPARENCY

Thanks to Clarins T.R.U.S.T., a platform based on blockchain technology, you can access the entire preparation and manufacturing process of each skincare products, as well as the expertise used and the plants that compose it: from their geographical origins to harvesting methods and certifications...

Total transparency that reflects the relationship of trust that has always united us with our customers.

DOMAINE CLARINS... THE PEAK OF BEAUTY.

On this unique, protected site covering 10 hectares at the heart of the Alps, free of air and land pollution, Clarins grows and harvests its own plants following the seasons and respecting nature. This Domaine is also a genuine open-air laboratory where Research teams can study plants, experiment with new ones and enrich Clarins Herbarium as new plant discoveries are made.

SPA@HOME

The Clarins experience continues after the Spa. We are always at your side, taking care of you, to maximize your beauty. Try your hand at Clarins Mixologie. Certain skin products can be mixed together for added benefits, enhanced results and a unique sensorial experience.

Dancing legs. Add a few drops of Relax Treatment Oil to Energizing Emulsion Soothes Tired Legs and massage the legs starting on the feet and moving up to the thighs, for an instant refreshing effect and to relieve tension.

Mad mask. Add a few drops of Blue Orchid Oil to your SOS Hydra Mask for even more moisturization and radiance. Apply the mixture then leave for 10 minutes.

Wrinkle smoother. Mix Beauty Flash Balm with your day cream to revive your skin's youthful radiance.

Velvet gloves. Add a few drops of Blue Orchid Oil to your Hand and Nail Treatment Cream for instantly moisturized hands.

NUTRITION

For healthy, easy meals, the feel-good recipes from Dr Olivier Courtin are always a great option!

VELOUTÉ OF RADISH TOPS

For 4 people.

Wash and roughly sliver the radish tops. Peel the potato and cut it into small dice. Put the olive oil in a pan with the slivered radish tops. Let them soften and reduce. Add the water and the diced potato.

Season with salt and let cook 15 minutes. Mix and add the yogurt, to which you have added some turmeric and pepper. Serve!

MY CHOCOLATE MOUSSE

For 6-8 people.

Melt the chocolate in a bain-marie, let cool slightly. Separate the eggs. Beat the yolks. Beat the whites in a mixer until they form firm peaks. Slowly add the chocolate to the egg yolks (if it is too hot it will cook them!), then, with a rubber spatula, fold in the stiff egg whites without breaking them.

Refrigerate for 2 hours before serving.
